

Clinical.

Clinical commitment to quality

The clinical team at Lincare AAC® doesn't just provide tools; we offer comprehensive training for users, caregivers, and educators. Our ongoing support ensures that everyone involved feels confident and empowered to use AAC effectively. Lincare AAC offers an experienced, client-centered approach with a total commitment to quality.

Speech-generating devices. The four Cs.

Convenience.

Experienced AAC consultants and technicians work closely with individuals, families, and caregivers to identify communication needs, ensuring the best AAC options are provided. We help you every step of the way on your AAC journey. Working with our team ensures convenience in multiple areas:

- Choice of communication apps operating on one device
- Clients may keep their loaner until the funded device arrives
- Partnerships with leaders in eye-gaze technology provide an array of solutions

Coverage.

Our funding specialists are here to help navigate the complexities of insurance verification to ensure that you receive the maximum benefits for your AAC device.

- Lincare AAC® is in network with most insurance companies across the country. We also partner with Medicare and numerous state Medicaid programs.
- Lincare offers a full spectrum of services including AAC, enteral therapy, in-home INR testing, oxygen therapy, Continuous Positive Airway Pressure (CPAP), noninvasive ventilation, High-Frequency Chest Wall Oscillation (HFCWO), nebulizers, and respiratory medications (provided by Lincare Pharmacy Services).

Compliance.

Quality is at the heart of everything we do. From the products we offer to the services we provide; we deliver the highest standard of care.

- Devices come with a three-year warranty
- In-house technical support for hardware, operating systems, and communication apps
- Full customer support from evaluation through implementation
