

Connect with Care Orchestrator

Remotely manage your Trilogy Evo patients from your computer, tablet or smartphone—anytime, anywhere.

Put power at your fingertips with Care Orchestrator—Philips cloud-based single system for sleep and respiratory care management. It delivers actionable patient data directly from Trilogy Evo to care teams, so everyone can work together to make fast, informed clinical decisions. And to prioritize those patients most in need of intervention.

Every Trilogy Evo home ventilator is equipped to connect with Care Orchestrator. Doing so can help care teams manage patients in an efficient, targeted way.

Stay connected to patient care

Trilogy Evo with Care Orchestrator helps you and your patients breathe easier

Monitor and manage respiratory patient data remotely

- View important information from Trilogy Evo, including:
 - Ventilation parameters
 - Alarm data
 - Device performance
 - Patient usage
 - Prescription information
- Access full therapy data quickly and easily
 - Statistics and patterns of use
 - Short- and long-term trends
 - Daily detail waveforms

Streamline the way you work

- Manage multiple ventilators and prescriptions with Trilogy Evo
- Empower care team members with access to information
- Facilitate effective collaboration across departments and locations
- Store prescription and therapy information in a single, secure location
- Download data with wireless connectivity* and USB

Access the information you need in the format you choose

- Create customizable and exportable reports, including:
 - Summary therapy data
 - Therapy data details
 - Daily detail data

Prioritize interventions for patients who need it most

- Care Orchestrator Health Usage Rules allow you to:
 - Customize ventilation rules
 - Set parameters for alert management
 - Receive proactive notification of a patient's changing condition
 - Categorize and distinguish patients most in need of intervention or follow-up

A simplified, patient-focused workflow

- Reduce unnecessary, costly, and unscheduled home visits
- Escalate concerns to the care team
- Enhance patient care
- Solidify relationships with your referral sources

Receive automatic patient data downloads from Trilogy Evo—three times a day or on demand as needed.

*Three times a day with a manual data push option. Connectivity service required.
